- The overall portfolio requirements are:
- 10 page limit, including a Cover Page with contents
- 2 projects
- Portfolios should be drawn largely from the design studio subject completed as a prerequisite for entry into the Master of Architecture 3 Year (300 point stream) program. The portfolio should include at least one project produced at university level in a studio learning environment. The second project may be a choice of university, professional, or personal work. Personal work can include creative work such as drawings, sketches, photography etc. that clearly exemplify design skills.
- The Selection Committee look for portfolios that demonstrate sensibilities in design and architectural thinking, exemplifying design skills gained from the 'design studio' prerequisite requirement. In addition, the Selection Committee will also look for an awareness of spatial thinking, and evidence of the exploration of 3D objects and spaces.

- The portfolio shall be printed on A3 in hardcopy and submitted in electronic form. All CAD drawing files are to be supplied as PDF's in a single document not exceeding 100MB. Consider the legibility and the hierarchy of your images and text. The portfolio is used to assess design skills and knowledge and should demonstrate familiarity with a range of design processes and media. Representation media should ideally include, but are not limited to: Adobe Photoshop, In-Design, Illustrator, AutoCAD, Revit and other 3D packages, as well as hand drawing, sketching, painting, collage, model-making and photography of models. In addition to final rendered images, include information on the process of design and development and construction documentation if any. The folio may include material developed with others in an office/practice situation where this is clearly referenced and the applicant's contribution explained.
