➢ There are no hard requirements for that digital portfolio. But generally it should:

➢ Highlight the knowledge and skills that are the basis of your application to the master program.

➢ Showcase the type of work you have done such as, products, drawings, photography, etc.

➢ For portfolio items that show product development, they should include details about the project from the beginning of problem definition to ideation, testing, and solution.

➢ The works in the portfolio along with your statement of purpose should give us a clear picture of where you are as a designer, how you hope to build on your skills (which are your starting point in the program), and how you envision your work/development in the master program will ultimately help you to achieve your goals.

**作品集要求：**

- Your portfolio should showcase your strongest work and convey an understanding of your creative research practice. Portfolios must be submitted online through an additional application process in SlideRoom. Applicants must submit 12 to 20 media files (images and/or videos). As part of the media upload process, and tied to individual files, you must provide additional details (title, date, media, contextual information, etc.) through "Label Media" to frame the work samples. This will help reviewers understand and appreciate your work.

- Applicants are asked to provide some basic information in the SlideRoom interface, including the MFA program to which you are applying. This declaration should match your application on the university site. SlideRoom provides a confirmation screen at the successful completion of the portfolio submission process.

- Prepare your files to fit the SlideRoom requirements. Images should be in JPEG (.jpg or .jpeg) format and cannot exceed 5mb per file. Please do not submit your images or portfolio as a PDF. Be sure to keep images large enough, without needless compression, such that they can be properly viewed. Videos can come in multiple formats (.m4v, .mov, .mp4, .wmv, .mpeg, or .mpg) and cannot exceed 60mb per file. It is also possible to link to external YouTube or Vimeo video files. Website links can be included in the Personal Statement.

Submit work that demonstrates your design and innovation abilities. Include examples of projects that show your process and how you develop your ideas into the project results. Sketchbooks and documentation of early idea development are welcome additions that complement more finished portfolios. We look for abilities to:

➤ Think and operate in terms of projects.
➤ Take a systems approach to design solutions.
➤ Write and communicate effectively.
➤ Envision and produce broadly desirable 3D objects and spaces.
➤ Produce a high level of aesthetic sensibility in production; e.g., style, proportion, shape, material, color, etc.
➤ Draw and/or otherwise visualize new ideas.
➤ Identify important opportunities and needs.
➤ Research, investigate and analyze design topics.
➤ Experiment, think laterally and engage in creative idea generation activities.
➤ Develop desirable solutions for real needs and problems that create value for the human condition.
➤ Consider and plan for related business dynamics.

➢ Exploit and employ appropriate technologies.

➢ Profess expertise and depth in specific areas or disciplines.

You'll need to submit a portfolio of up to 25 still images, video, time-based media, or interactive media. If you'd like to include video or time-based media, you'll need to submit a five-minute sample reel, too. Clearly label your sample reel with the title, date, running time, and a brief description of the work(s). Our admissions committee will review your portfolio on a computer, so please make sure it adheres to the following specifications:

➢ Must be a SlideRoom submission
➢ 5 MB maximum size for each still image
➢ 60 MB maximum size for each video, time-based media, and interactive media
➢ Academic, personal, and professional work are all acceptable. Once your portfolio has been uploaded and submitted via SlideRoom, no further changes can be made.

➢ You should conceive of your portfolio as a collection of projects. We are open to projects of varying aesthetic, formal and conceptual types. Whatever their form, projects should:

➢ Demonstrate an ability to think through a problem

➢ Articulate the designer's approach and resolution in compelling ways

➢ Manifest solutions and offerings that show craft, rigor and delight.

➢ Please include at least 10 projects in your portfolio. These 10 projects may vary in complexity and kind. The following is a partial list of some possible project types: Research project; Designed object/artifact; Craft/hack/mod; Business venture; Conceptual work; Published work; Pro-bono initiatives; Competition entries.

➢ Several of your projects should show process along with finished work; we want to see how you came to a resolution, including some of your decision points along the way. Do not be afraid to show broken models, failed attempts, iteration and learning.

➢ Be sure to include any published work (on the web, in print, or in exhibition), awards or competition submissions, and any other materials that evidence your commitment and passion for the enterprise of problem solving, celebration and design.

- The portfolio must be completed in SlideRoom only. The purpose of the portfolio is to show your individual perspective and creative skills. Prepare a sequence of 15–25 images that best communicate your visual thinking. Include work that best demonstrates your skills from previous educational and/or professional experience. Sketches and conceptual work can also be included.
- We welcome students from a wide variety of disciplines. If you are an applicant without previous training in industrial design or other design-related fields, you can demonstrate your aptitude by submitting examples of freehand drawing, photography, painting, sculpture, graphic design, three-dimensional work, furniture, product design, digital media, or work in other forms. Time-based works such as film, video, performance, installation or sound are also accepted. Do not combine images in a prepared presentation or slideshow of any type (e.g., PowerPoint or Keynote).

➢ Attach up to 20 examples of recent work and provide title, date, materials, and dimension for each image/file uploaded. Instructions on acceptable file types will be provided during the upload process in Slideroom.

➢ When putting together your portfolio, remember to include only great images of your work.

➢ If you need help photographing your work, get help. Powerful photos showcase powerful work.

➢ It always helps to get a second-opinion; a friend or mentor can "see" your work in ways you might not.

➢ Think of your portfolio as a creative project of its own – consider sequence, pacing and how one image moves to the next.

➢ It's a good idea to group pieces in a series together. In fact, working serially can help develop an idea or approach fully.

➢ When sequencing your images, start with strong work and end with strong work.

➢ We recommend that no single video exceed 3 minutes. This is just a recommendation, though, and you can submit a longer video if necessary.
