作品集要求：

➢ Your portfolio must be submitted digitally according to the instructions below. The samples of your work must describe results from studies and/or works that you want to refer to. If any sample is not completely your own work, this must be made clear and you must clearly indicate which sections you have created.

➢ Your application must include the following two (2) compulsory sections:
Your own selection of works

➢ Send us documentation of works that you have produced on your own. You can also present work that has been done by a group. If you present group-work you have to specify precisely what your contribution has been.

➢ You may have produced the works during your Bachelor's programme, an internship or while you have been working professionally.

➢ You may also include three sketches, paintings and/or sculptures if you want to.

➢ For us to be able to assess your way of working from the beginning to final proposal it is required that you present this for at least three (3) of the works that you submit. You may, for example, present different types of sketches (some need to be made by hand), renderings, studies, photographs of models, models in context, films and/or other images that show how the final proposal evolved. Explain them with captions in which you describe, for instance, your starting point, intention, task and other aspects of your thought processes during your work.

➢ All of the samples you present should be assembled to form one PDF file of no more than twenty (20) pages in A3 landscape format. Arrange your sketches,

drawings, photographs and films etc. on these pages. (Films should be represented in your portfolio by one image from the film and its title. The actual films are submitted as separate files.)

➢ The last page must contain a table of contents covering every work in the portfolio. The table of contents should offer a clear summary of the samples of your work submitted with thumbnail images for each of them. The table of contents will be used by the selection panel to get an overview when discussing the works.

➢ Give your PDF file a name using the following format "Surname-Forename-1.pdf".

➢ The samples in your portfolio must demonstrate your ability to present spatiality through, for instance,

- a drawing/3D object that you consider shows spatialities (space)
- drawings/3D-objects that you consider show movement, direction and scale.

➢ Your portfolio must also demonstrate your ability to make drawings and understand them by presenting, for instance,

- scale drawings in the technique of your choice (freehand, digital media) of any object/room/spatiality/project you choose.

➢ You must provide a Portfolio of your works. The portfolio must be uploaded on your online profile in the section "Master of Science programme(s) selection" and cannot be bigger than 20 MB. Please do not send hard copies by post since they will not be considered.
What is a portfolio?

➢ The portfolio is a collection of selected samples of work from your previous educational programme or work experiences. It should reflect the scope and variety of your training and experience with specific emphasis on your knowledge of and skills in the degree track for which you are applying. You should submit works that represent your interests and personal views as well as your design and technological abilities. Neatness and clarity of presentation are extremely important as they reflect both your attitude towards your work as well as your ability to communicate your work in a comprehensive and deliberate manner.
